The Guernsey Community Foundation is looking for volunteers to join its Grants Panel

Grants Panel Members

The Panel meets every few months to consider funding applications from local charities and then makes recommendations to the Foundation's board. Full training is provided.

Members of the Panel must be skilled at processing complex information and have the ability to exercise sound judgement. They will be comfortable expressing an independent view and arguing their case. Also important is a keen social conscience.

The Foundation is keen to hear from people who have worked in the charitable sector or who have a background in IT, finance or web design, but these skills and experiences are by no means essential.
